

# THE PATRIOT LEAGUE NETWORK

League-Wide Live Sports Production

## CASE STUDY

### OBJECTIVE

The Patriot League, a Division 1 NCAA athletic conference, needed to provide all 10 schools in the league with the same equipment to broadcast nearly 250 games per sports season on the Patriot League Network (PLN), their digital network for live streaming and programming.

### SOLUTION

Together, AVT and representatives from the Patriot League worked to determine a package that would give all 10 schools in the league a comprehensive mobile video system that would allow them to easily capture and stream games throughout the season. In addition to the design, integration and coordination of all 10 systems AVT helped to facilitate a league wide production training course before the fall sports season kicked off in August. Each school was represented at the day long training course where production staff was briefed on how to set up and use the equipment as well as the concepts behind the online streaming platform.

### KEY PRODUCTS

- NewTek TriCaster
- NewTek LiveText Software
- Avid NEXIS Pro

- Telex Intercom System
- JVC Camcorder
- Manfrotto Tripods
